Polar

Engineering soul

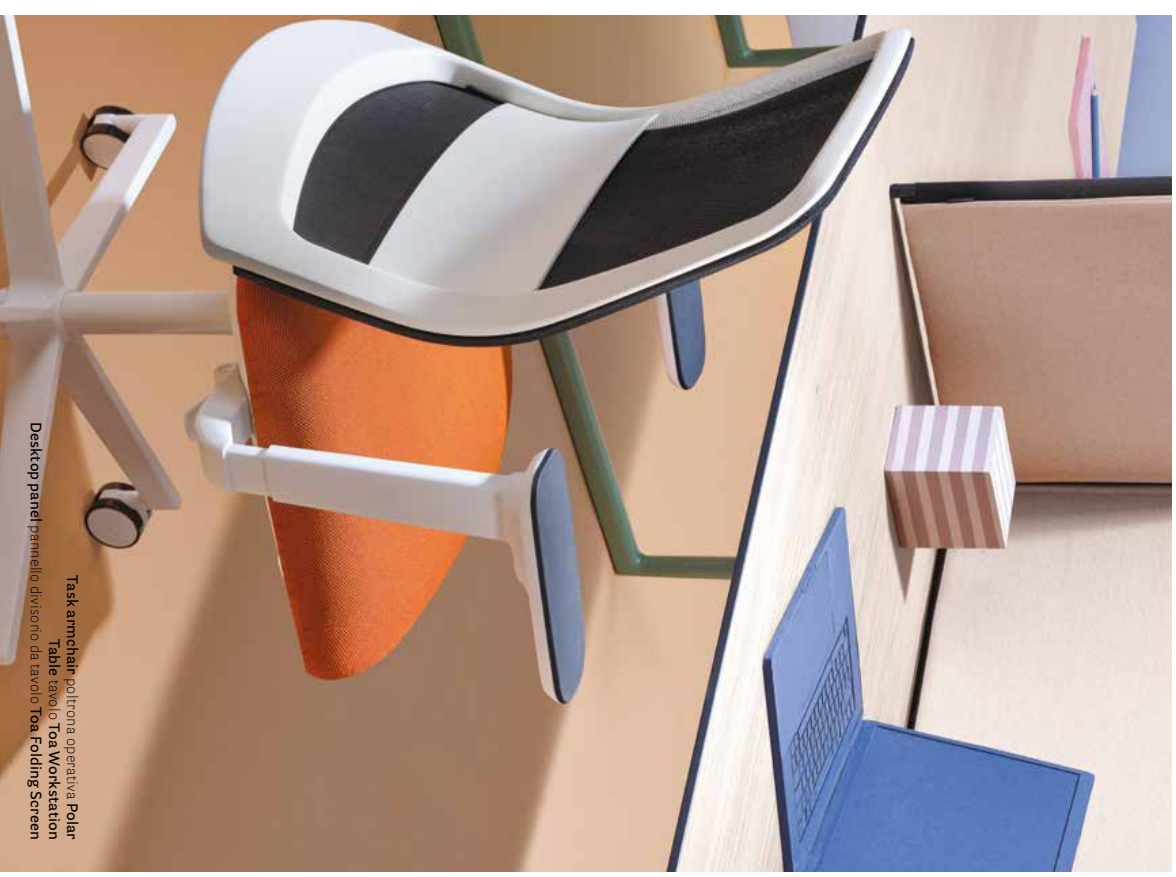

DESIGN
Jorge Penzi Design Studio, 2022

EN – Polar is a task chair that ensures maximum customization in terms of ergonomics with its simple and intuitive built-in mechanisms. The backrest consists of an injected-moulded nylon frame with a breathable, flexible polyester mesh for a sense of transparency. A special mechanism allows the seat's depth to be adjusted. The chair guarantees excellent comfort thanks to its weight-activated, synchro-tilt mechanism that is able to regulate the degree of tilting autonomously according to the user's body weight.

IT – Polar è una seduta operativa che garantisce una massima personalizzazione in termini di ergonomia grazie alla presenza di meccanismi integrati semplici e intuitivi. Lo schienale è composto da una struttura in nylon stampato a iniezione alla quale viene fissata una rete in poliestere traspirante e flessibile, che dona trasparenza. Grazie ad un meccanismo che ne consente il movimento, è possibile regolare la profondità del sedile. Un moderno meccanismo sincronizzato autopesante, capace di regolare autonomamente l'intensità dell'oscillazione in funzione del peso corporeo dell'utente, garantisce inoltre a questa seduta operativa adattabilità ed estremo comfort.

Gliss

Sinuous shell

DESIGN
Claudio Dondoli - Marco Poggi, 2002

EN — Gliss has a cosy and ergonomic shape inspired by the iconic “Fifties” chairs, featuring a distinctive hole in the shell. The collection stands out for its comfort and functionality, given by the sinuous armrests that embrace the body and the ease of handling.

IT — Gliss è una poltrona dalla forma avvolgente ed ergonomica che si ispira alle sedute iconiche degli anni Cinquanta e si connota per l'elemento distintivo del foro sulla scocca. La collezione è confortevole e funzionale grazie alla forma sinuosa dei braccioli che cingono chi vi si siede in un abbraccio, oltre ad ottimizzarne la presa per la movimentazione.
