

Finest

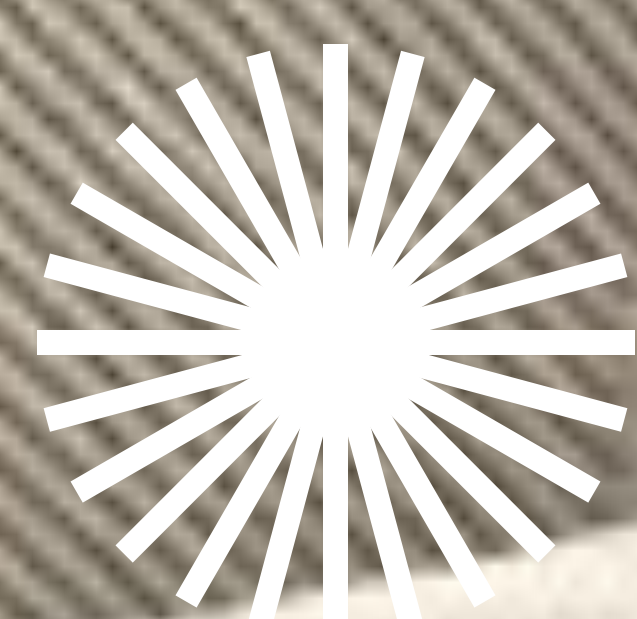

Estudio Sancal returns to textile design together with the Dutch company **Byborre**, making an exclusive fabric to celebrate the firm's 50th anniversary.

Fiesta is available in a dark **Noche** & light **Día** colourway.

Día

Noche

Opposites, they share a characteristic print, creating a perfect contrast between sobriety and fun.

Día

White reminds us of bright days. The colour of light, it transmits minimalism and functionality, evoking a feeling of well being.

Noche

Black is the absence of colour and, therefore, the absence of light. A classic, sophisticated, solemn hue. Effortlessly chic.

Inspiration

A collection of various textile and material samples, including patterned fabrics, solid colors, and textured materials, arranged on a dark surface. The word 'Inspiration' is overlaid in large white text.

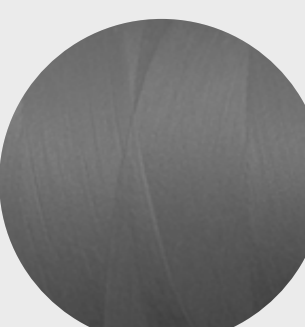

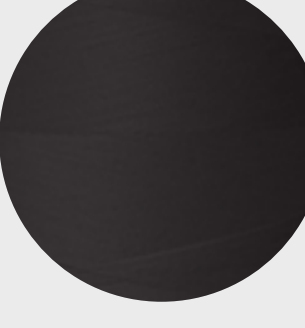

Technical Info

Noche

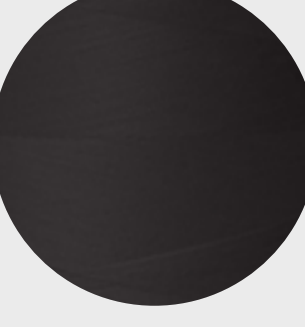

Selected Yarns

-  Turbulence
-  Anthracite
-  Doe
-  Tap Shoe

Día

Selected Yarns

-  High-Rise
-  Whisper white
-  Latte
-  Gray Sand
-  Tap Shoe

3D

All fabrics have textures, but few have such a bold use of knitted blisters to create a truly three dimensional surface that is both soft and interesting to the touch.

Unique products

The oversized pattern means that the fabrics will never be cut in exactly the same way leading to unique products.

Environmental impact

The textiles are Oeko-Tex and Global Recycled Standard certified, verifying responsible environmental and chemical practices.

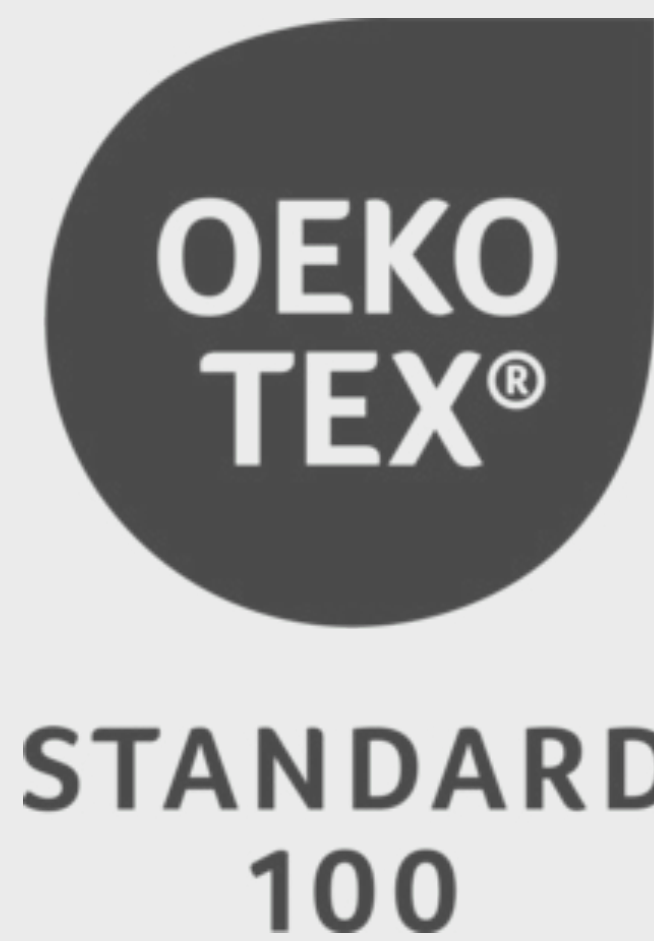

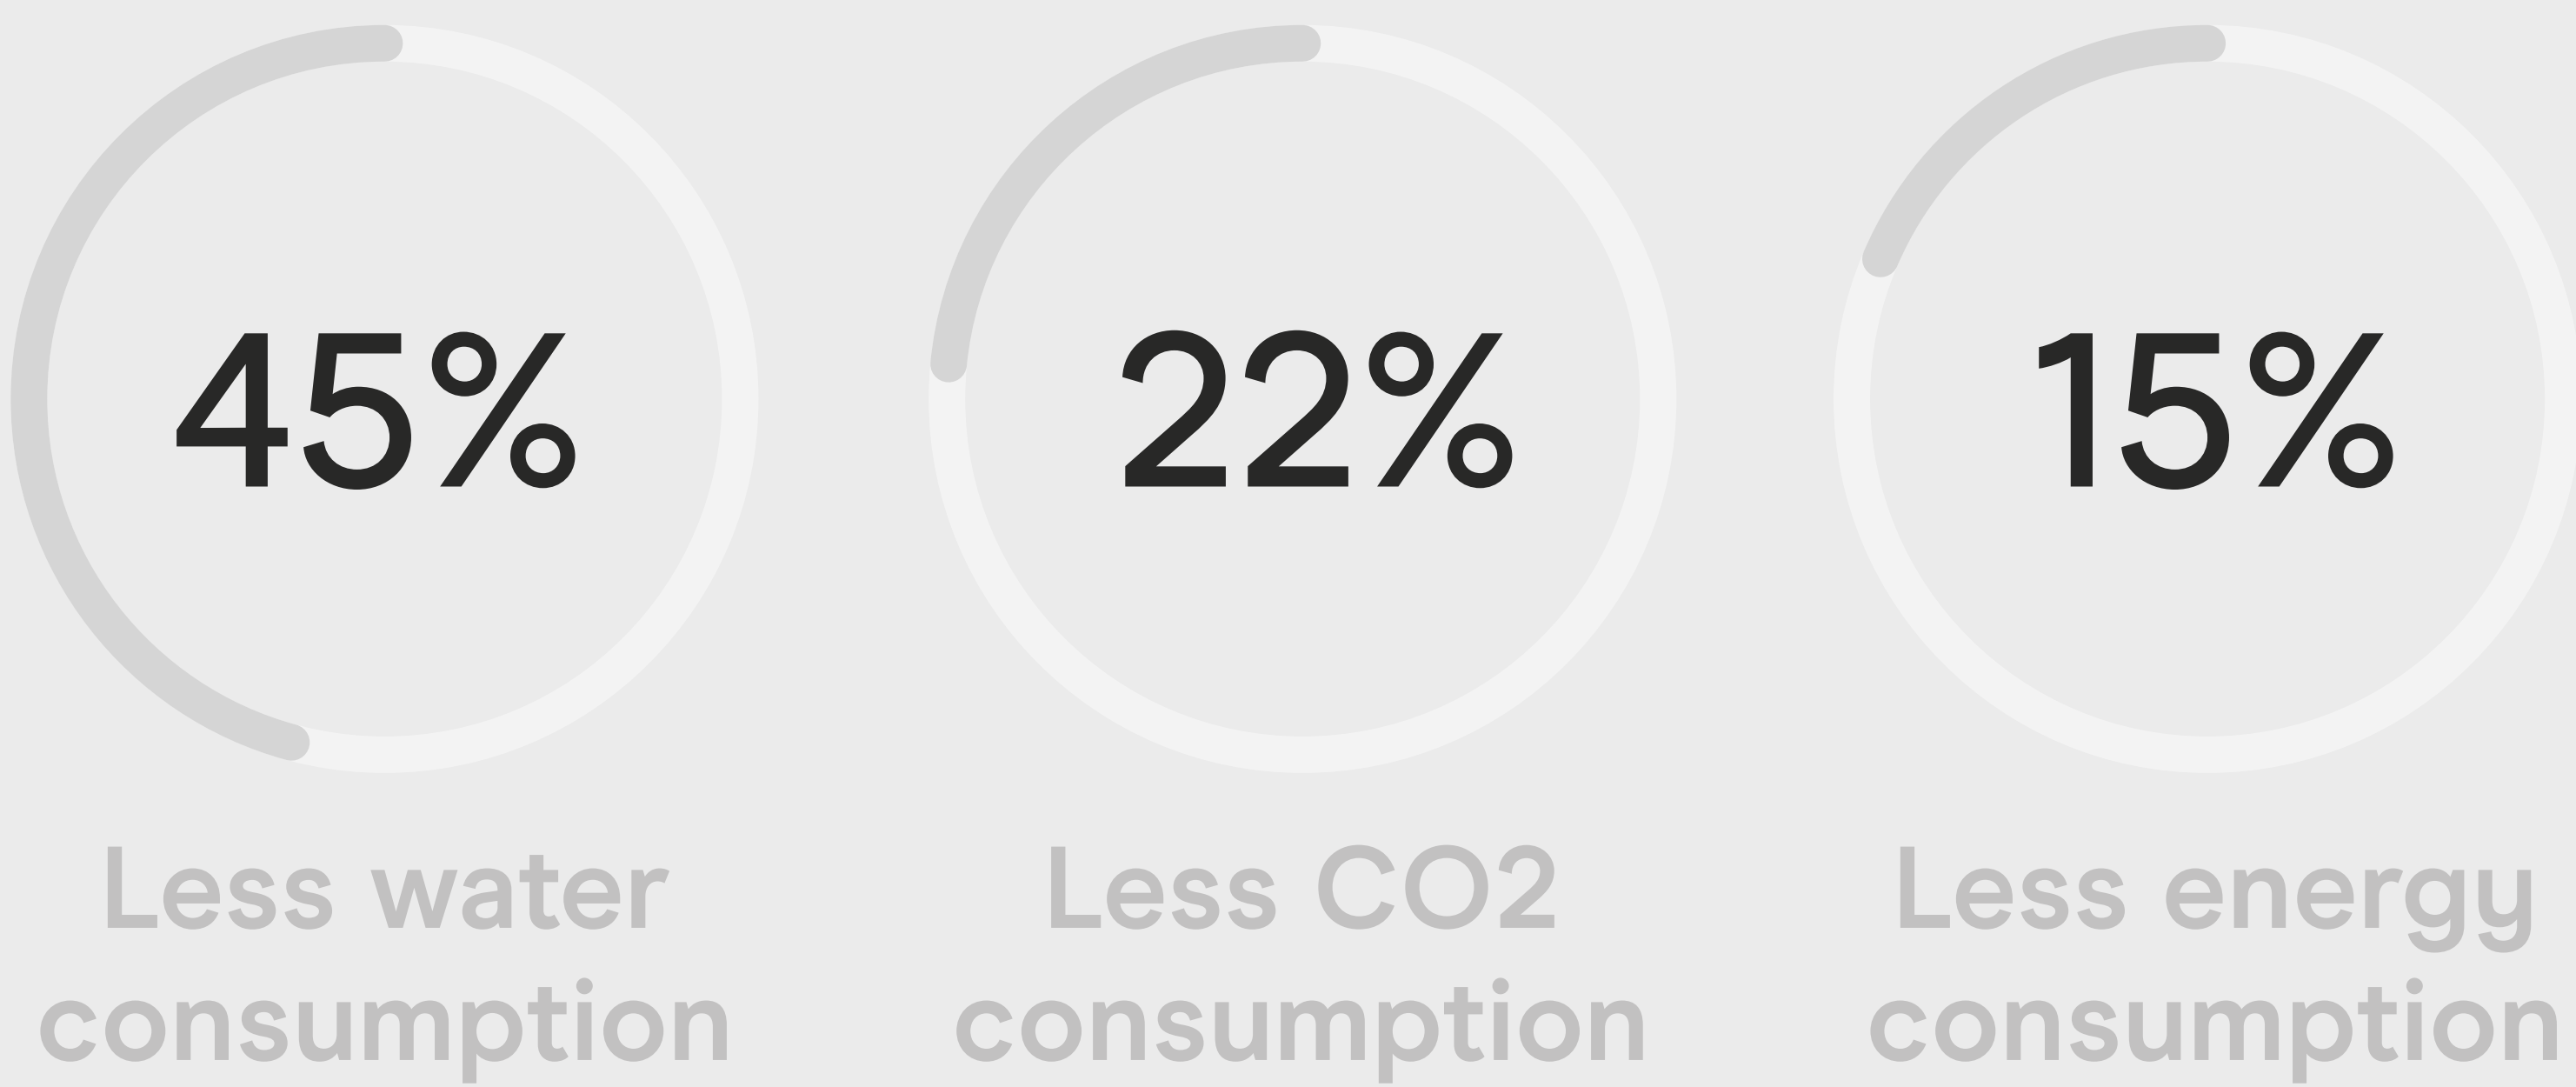

These state-of-the-art materials are durable, resistant, and less harmful to the environment. For more information on the Life Cycle Assessment methodology, [click here](#).

Fits like a glove

The knitted structure and the use of Merlow Wool with its natural elasticity means that the fabric can be tightly tailored to a product while minimizing wrinkling.

Built-in fire retardancy

The fabric meets both European and US norms, without the need for toxic fire retardants.
